

Jaimineeya Sama Vedam Website - Current Status

Overview

This document tracks the current implementation progress of jaimineeyasamavedam.org.

Last Updated: February 5, 2026
Domain: jaimineeyasamavedam.org
Hosting: Hostinger Single Plan
CMS: WordPress + Static HTML Generator (Python)

Implementation Progress

[!NOTE] WordPress was installed on December 30, 2025. A backup export exists in the repository.

☑ Completed

Item	Evidence
Hostinger Single Plan	User confirmed active
Domain connected	jaimineeyasamavedam.org
WordPress installed	Export dated 2025-12-30
Astra theme	Template assets in export
Mobile menu fix	CSS in <code>additional_css.css</code>
Indic fonts CSS	Added to Additional CSS
Google Analytics	Configured
Project documentation	In <code>Project_Documentation/</code>
WordPress backup	<code>jaimineeyasamavedamorg.WordPress.2025-12-30.xml</code>
Static Website Generator	<code>src/generate_website.py</code> (v2.0)
Text Library (Static)	<code>docs/</code> folder populated with Parvas/Kandahs
Design System	Verified Colors (<code>#EFE6D5</code> , <code>#FCF9F0</code>) & Fonts
Versioning	Implemented across all outputs (HTML, PDF, CSV)

🔍 To Verify

Item	Notes
Deployment	Upload <code>docs/</code> folder to Hostinger file manager
Integration	Link Main WP Menu to Static <code>docs/index.html</code>

Item	Notes
Mobile Responsiveness	Test new static layout on actual mobile devices
Audio Mapping	Verify mapping of MP3 filenames to generated placeholders

 Not Started (Release 1)

Item	Priority	Persona
Gurukulam Finder	High	 Seeker
Getting Started Page	Medium	 Seeker
Audio Content Population	Medium	Shared
PDF Downloads Section	High	 Student
WordPress Integration	High	Shared
Contact Form	Low	Shared
Newsletter Placeholder	Low	 Community
Search Functionality	High	 Student
Video Integration & Hosting	Medium	Shared
Audio Cloud Integration	Medium	Shared

Documentation Available

Document	Purpose
implementation_plan.md	Full architecture, personas, pages
setup_guide.md	Step-by-step setup instructions
quick_reference.md	CSS snippets, plugin list
walkthrough.md	Project summary

Recommended Next Steps

1. **Audio Integration:** Determine cloud hosting strategy (e.g., Cloudflare R2) and organize MP3s.
2. **Metadata Refinement:** Update Rishi, Devata, and Chandas metadata to enable advanced classification and ordering.
3. **Deploy Text Library:** Upload the generated **docs/** folder to the web host.
4. **Configure Navigation:** Link WP to Static Library and implement Search functionality.
5. **Video Strategy:** Decide on video hosting platform (YouTube vs. Self-hosted vs. Vimeo) and integrate.

Content Strategy & Production

Core Content

- ☐ **Reference Collation:** Curate and select reference content for publication.
- ☐ **Historical Articles:** Write articles on JSV Agraharams, migrations, and history.
- ☐ **Patashala Updates:** Establish workflow for gathering updates from JSV Patashalas.

Multimedia

- ☐ **Vidwan Recordings (Video):** Coordinate recordings of senior Vidwans.
- ☐ **Samhita Recordings (Audio):** Plan and execute audio recording of Samhita portions (TBD).
- ☐ **Video Strategy:** Decide on hosting (YouTube vs Self-hosted vs Vimeo).

Data Collection

- ☐ **Gurukulam Directory:** Collect names, addresses, and contacts.
- ☐ **PDF Library:** Finalize list of PDF texts to upload.

Future Outreach & Expansion (Phase 2)

- ☐ **Inter-Recension Collaboration:** Contact Vidwans from other recensions for ideas and contributions.
- ☐ **Global Scholarship:** Reach out to European scholars for academic perspectives/contributions.
